2019 BCA Summer Algebra Intensive Review

*The BCA Summer Algebra Intensive Review covers all of the topics in a typical Algebra I course.
Six Weeks: July 1st through August 8th, from 8:00 a.m. to 12:00 p.m.*

Week 1: July 1st, 2nd, 3rd

Week 2: July 8th, 9th, 10th, 11th, 12th

Weeks 3-6: July 15th – August 8th, Monday through Thursday

This course is only open for Bergen County Academies incoming freshmen:

The course is recommended for incoming BCA freshmen who have been placed in Advanced Algebra. For these students, the course offers the potential to change their 9th grade placement to Analysis I, which will in turn allow them to take Calculus in their junior year (please see the “BCA Math Course Sequence” below). Even if placement is not changed, this course will be a great review and preparation for BCA. For this reason, we also recommend this course for students who are placed in Analysis I and want to review Algebra.

Cost: \$480

Students are accepted on a first-come, first-served basis: please sign up at your earliest convenience. Register using the following site:
